MagicQ Playback Wing

Extend your MagicQ Console with one or more extra Playback wings. Each Playback Wing has two banks of 12 Playbacks each individually paged. MagicQ Playback Wings connect to MagicQ Consoles via USB. No extra software required, just connect the Wing to the Console, enable the wing in the Console options and the Playbacks are ready to control your show.

MagicQ Playback Wings can be used on MagicQ PC systems together with MagicQ Mini, Maxi or standard PC Wings using the same MagicQ PC software. With up to eight Playback Wings you'll never run out of playbacks.

A flight case is available to purchase for the Playback Wing otherwise it will be supplied with a shipping case to protect the wing while in transit.
