Click-on StageDex profiles

One simple click and the profile is mounted to your deck!

There are two click-on systems available: skirting profile and toe board profile. Each profile works with a simple click and lock system and requires no tools to secure into place. These timesaving products can be locked on from the top for quick and easy assembly.

Prolyte click-on skirting profile

The skirting profile is developed to create an easy way to attach skirting to your decks, finishing the look of your platform or stage neatly.

This profile is available in lengths of 470 mm, 970 mm and 1970 mm.

A Velcro strip is delivered with this profile to facilitate the attachment of skirting.

Prolyte click-on toe board profile

The skirting profile is developed to create an easy way to mount a toe board to your platform or staging area, creating a safe zone and preventing chairs from skidding off. This profile is available in lengths of 470 mm, 970 mm and 1970 mm.

These new profiles replace the old versions SM-CT-ATT-01, 02 and 03.
